Carrying out a wide range of Mechanical work, fault finding and repairs ensuring planned preventative maintenance (PPM) Statutory, Routine and reactive work is carried out within the confines of the PFI contract and ensuring compliance with Sodexo and the Trust safety standards and procedures within the contractual timelines and KPI's

Duties & Accountabilities

- To work in hazardous areas taking all safety measures to prevent danger, avoid injury and prevent damage to equipment

- Liaison with contractors appointed on Maintenance tasks, capital projects and minor upgrade works.
- To liaise with subcontractors and the in-house team regarding plant or equipment, update and take instruction from the Mechanical Supervisor.
- Work overtime to carry out emergency repairs as required by management.
- At all times to carry Trust/Sodexo communication devices (Tablets/ mobile phones etc) to facilitate immediate response to emergencies.
- Attend training courses as required.
- Demonstrate a clear commitment to inter-trade flexibility
- Provide such flexibility as necessary to cover emergency works 24 hours a day, 7 days a week and participate in the on-call rota.
- Observe all statutory and legal requirements, particularly in relation to Health & Safety at Work Act, Health Technical Memoranda and current legislation.
- Use Sodexo's CAFM system for work processing and monitoring of estates Maintenance procedures in the required timescales.
- Have the ability and willingness to work across all trades within the sphere of their competency and under guidance from others if outside this.
- Liaising with the Client, Helpdesk, contractors, Clinical nursing staff and heads of departments regarding work requests, information & planning.
- Provide trade skill expertise and provide information and assistance to the management team as requested
- Provide such flexibility as necessary with a can-do attitude
- Convey a professional image of the Estates department to the client whilst encouraging and maintaining good working relationships with all users of the Estates service
- Able to carry out fault finding with the ability to diagnose problems and improvements along with hands on repair of designated plant and equipment.
- Have a good knowledge of Hospital building services not limited to but including: Boilers, Ventilation and Air Conditioning and associated control systems, Heating and Cooling systems and all other general mechanical installations.
- To undertake Authorised Person duties as per operational requirements.
- To provide subject matter experience and advise on operational requirements in either Water, Ventilation, Medical Gases, Pressure systems and Decontamination.
- To be able to risk assess, identify hazards in the workplace and implement control measures.

Hours Of Work

- 40 hrs. per week over 7 days per week..
- Daily start and finish times shall be varied to meet the needs of the service however base hours will be 08.00-17.00.
- You will be required to take part on the on-call rota to give cover outside of normal working hours.
- You will be required to take part in the 7-day cover rota.

Please note that this job description is not an exhaustive list of duties but merely a guide to the responsibilities of the post holder. The post holder may be required to undertake additional duties within the sphere of their competence.

KNOWLEDGE & SKILLS

The post holder will be required to use their skills and knowledge to undertake day to day reactive and PPM tasks on a wide range of mechanical systems,

The work activities, which can be complex and/or non-routine involve assistance with fault diagnosis & fault rectification, maintenance, and capital work across the Trust.

This will reflect the need for the post holder to act on his/her own initiative, the need for accuracy, attention to detail, numeracy and record keeping and lead from the front with regards to the mechanical team.

The post holder will always be required to assess the workload taking into account the priority, risk factors and possible interruption of this work due to urgent/emergency calls showing their ability to assist and communicate with the team.

The post holder will be required to use machinery and tools within their level of expertise and training. The post holder will also be required to make regular use of ladders, and access equipment.

Contextual Information

Training

Employees are required to attend all Health & Safety training and fully participate in the required company and trust training.

Specific task related training will be arranged as necessary. This training will generally be conducted away from site, travel and accommodation if needed will be provided

Conduct

Staff must always conduct themselves in a professional manner and be aware of patient's dignity and privacy when it comes to their personal information. All Estates staff are expected to be mindful to give assistance and wherever possible to help with any queries raised by patients and visitors in the correct manor.

Quality

Sodexo is committed to providing patient customer care of the highest quality and promotes this through the customer care training of their staff.

Confidentiality

During the course of his/her duties the post holder may have access to confidential information which must not be divulged to any unauthorised person or any relative at any time.

Policies and Procedures

The post holder is required to familiarise and comply with all relevant Sodexo and Trust policies and procedures.

Health and Safety

Staff must take care of their own safety and others who may be affected by their actions or omissions. Health and Safety in the workplace is a two-way thing, managers must make sure their employees work in a safe environment and employees have an obligation to report any Health and Safety concerns to management. The workforce must ensure that all equipment or personal protective equipment provided is used in the appropriate manner. They must also report any accidents or near misses to the appropriate manager.
